Subject: Rosemont: Russ Kaiser's summary from last week's meetings/site visit
Rosemont Mine Site 3 Feb 14.pptx

Following his participation in last week's meetings and site visit, Russ has done a great job laying out key issues - illustrated with photo's of the Rosemont mine setting and aquatic resources that would/could be impacted.

We will get time on calendar as quickly as possible. I'll see if there is possibility of a time that works for both Nancy and Ken end of this week or early next week.

In the meantime, the briefing is very informative. But talking through it and having Russ able to explain the location and relevance of the many photos will be important.

Dave Evans
